

24v RD-LED Midi Stick

Remote driver Suspended/Surface

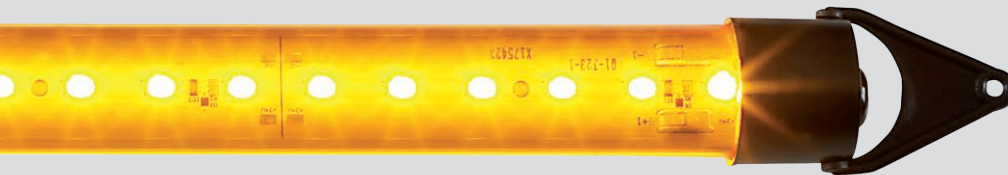

Tube \varnothing 27.5mm

Cap \varnothing 30.5mm

Light output 360°

Tubular diffused LED light, black end caps.

The 24v RD Midi Stick is a light weight LED lit tube with 360° light output. The slim Midi stick can be suspended horizontally, vertically or at any angle, as well as surface mounted.

The 24v RD Midi Stick-Lite is a versatile linear lighting solution and will operate from a 24v constant voltage driver that can be dimmable. Multiple lights can operate from one suitable driver, please enquire.
